REVIEW
for the main professional educational program of higher education - a bachelor's degree program in the field of study 38.04.01 Economics, specialization "Finance", developed by the Federal State Budgetary Educational Institution of Higher Education "Oryol State Agrarian University" named after N.V. Parakhina"

The main professional educational program of the bachelor's degree, implemented in the field of training 38.04.01 "Economics" focus "Finance", is a system of documents developed and approved by the Federal State Budgetary Educational Institution of Higher Education Oryol State Agrarian University and complies with the Federal State Educational Standard of Higher Education (FSES VO) for the corresponding field of training.

The OPEP regulates the goals, expected results, content, conditions and technologies for implementing the educational process, assessing the quality of graduate training in a given area of training and includes: a curriculum, an abstract of the work programs of academic courses, subjects, disciplines (modules) and other materials that ensure

the quality of training of students, as well as internship programs, a calendar academic schedule and methodological materials that ensure the implementation of the relevant educational technology.

The OPEP contains forms and means of current and intermediate control adequate to the goals and objectives of the implementation of the main educational program in the field of training 38.04.01 Economics, focus "Finance".

The list of developed competencies that students must master upon completion of the educational program of higher education corresponds to the Federal State Educational Standard of Higher Education. The assessment indicators and criteria generally allow for a comprehensive assessment of learning outcomes and competency development levels.

The assessment toolbox (AST) is based on key assessment principles: validity, certainty, unambiguity, and reliability. It complies with the requirements for the composition and interconnectivity of assessment tools and enables an objective assessment of learning outcomes and competency development levels. The AST methodological materials contain clearly defined recommendations for assessing learning outcomes and competency development.

The focus of the FOS corresponds to the goals of the educational program of higher education in the direction 38.04.01 "Economics" focus "Finance", types (analytical, research, settlement and economic; settlement and financial; banking; insurance) of professional activity and future professional activity of the student.

Based on the conducted examination, it can be concluded that the OPOEP of HE in the direction 38.04.01 "Economics" focus "Finance", developed by the Federal State Budgetary Educational Institution of Higher Education "Oryol State Agrarian University named after N.V. Parakhin", meets the requirements of the Federal State Educational Standard, as well as the current demands of the labor market.
